

# CALENDAR NOTEBOOKS

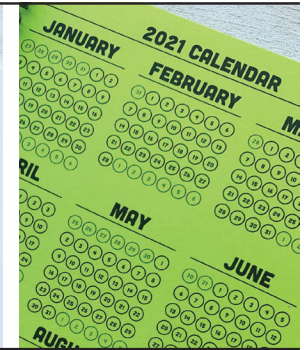

Some studies reveal that writing on paper helps us better retain information, in part because writing out ideas slows us down and forces us to pay close attention to the words we write. Even in a digital age, paper is still the preferred choice for creativity and productivity writing and notes.

*Calendar Notebooks* is a fresh take on a typical notebook solution. We are integrating a vibrant array of colors all made in the USA in a single thick & double thick French folded format. When bound with 50 sheets of double lined or graph ruled paper, you'll find a durable, sturdy solution that feels great in hand and an economical price point.
