

# Critical Communication Signage

Our repositionable signage is an effective visual tool to communicate and remind the importance for hand washing, as well as other steps to preventing illness in a business or retail setting.

Our critical communication signage is printed on a durable white plastic based film featuring a non-static, non-traditional adhesive design that can be easily applied to most clean and smooth surfaces. It leaves absolutely no residue when removed, even after long application periods.

Installation and maintenance is very quick and easy. The product can be installed by one person in seconds. Being plastic based it also holds up to most traditional cleaning and disinfecting agents.

**Wood/Drywall**

## Easily apply to:

### Aluminum/Steel

### Acrylic/Mirrors

### Glass Interior/Exterior

Applies to most clean smooth surfaces. Communication signage also available in additional sizes, Rigid materials, banner material, and PS Vinyl. Please contact us for pricing. Lead time is 3-5 days for orders under 250. Please contact us for us custom graphics, or additional quantities

# Social Distancing Floor Graphics

In the wake of the outbreak of COVID -19 it has become common practice to follow social distancing guidelines to slow and prevent exposure. In an effort to help encourage practicing keeping safe distances, floor graphics make a great visual representation of recommended distance in essential and necessary environments.

We have several visual solutions available along with materials on hand to promptly produce floor and door graphics to promote safe social distancing.
